

# Adrián VILLANUEVA

## Software Engineer | Data Engineer

 [linkedin.com/in/adrian-villanueva-martinez](https://www.linkedin.com/in/adrian-villanueva-martinez)  [github.com/adrianvillanueva997](https://github.com/adrianvillanueva997)  
 +34 638084303  [adrian.villanueva.martinez@outlook.com](mailto:adrian.villanueva.martinez@outlook.com)  
 Amsterdam, Netherlands

Senior Software Engineer with a successful track record in delivering high-quality solutions. Experienced leader skilled in driving projects from concept to completion. Passionate about optimizing processes through technology.

## SKILLS

|                       |  |
|-----------------------|--|
| Programming Languages | Python, Java, Go, Rust, NodeJS, C, HTML/CSS/JavaScript                                 |
| Database Management   | SQL Server, MySQL, PostgreSQL, MongoDB, AWS Athena, Cassandra, Redis                   |
| DevOps and Tools      | Docker, Kubernetes, Terraform, ArgoCD, Git, CI/CD, GitHub Actions, Prometheus, Grafana |
| Data Engineering      | PySpark, Pandas, Airflow, Databricks, DBT, Kafka, FastApi                              |
| Cloud Providers       | AWS, GCP, Azure  |

## EXPERIENCE

|                              |  |
|------------------------------|--|
| Present<br>March 2022        | <b>Data Engineer, NL, Ahold Delhaize</b> <ul style="list-style-type: none"><li>Architected and maintained Terraform modules for scalable infrastructure.</li><li>Developed and streamlined CI/CD pipelines for efficient deployment processes.</li><li>Designed and developed Python software solutions with Kusto integration for automation and auditing.</li><li>Provided crucial cross-team deployment support, fostering collaboration and ensuring successful project rollouts.</li><li>Leadership in Python project initiatives, ensuring design integrity and quality.</li><li>Creating ETL data pipelines on Databricks</li><li>Designing, developing, and releasing internal data-based tools for auditing and monitoring using Python and other languages</li><li>Maintaining and developing Terraform modules</li><li>Maintaining and developing Continuous Integration/Deployment pipelines on GitHub Actions</li><li>Deploying and maintaining resources on Azure and Kubernetes with ArgoCD</li></ul> <div><div>Python</div><div>Terraform</div><div>CI/CD</div><div>Azure Kusto</div><div>Kubernetes</div><div>Azure</div><div>DevOps</div><div>Git</div><div>SQL</div><div>Kafka</div><div>Prometheus</div><div>Grafana</div><div>ArgoCD</div><div>Docker</div><div>Microservices</div></div> |
| March 2023<br>March 2022     | <b>Data Engineer, NL, Xccelerated, part of Xebia</b> <ul style="list-style-type: none"><li>Developed and maintained data pipelines and ML models in a cloud environment (Google Cloud) using Python and PySpark</li><li>Software development in different technologies such as PySpark, Kafka, Kubernetes and Redis</li><li>Design and deploy microservices in a cloud environment</li><li>Design and deploy Continuous Integration/Deployment pipelines using Git, Terraform and ArgoCD</li></ul> <div><div>Python</div><div>Google Cloud</div><div>Redis</div><div>Kafka</div><div>Microservices</div><div>Git</div><div>Terraform</div><div>Kubernetes</div><div>ArgoCD</div><div>DBT</div><div>SQL</div><div>PySpark</div><div>Deep Learning</div></div>   |
| March 2022<br>September 2021 | <b>Data Engineer, NL, Dashmote</b> <ul style="list-style-type: none"><li>Infrastructure as Code (IaC) with Terraform on AWS, including design and implementation of scripts for service deployments.</li><li>Maintenance and optimization of legacy Apache Airflow components in Python.</li><li>Deployment and optimization of Docker images using buildkit, caching and multi-stage builds.</li><li>Team collaboration and mentorship, design and deployment of production-ready datalake on AWS,</li><li>redesign and implementation of DevOps strategies resulting in faster workflows.</li></ul> <div><div>Python</div><div>AWS</div><div>Docker</div><div>DevOps</div><div>Airflow</div><div>Git</div><div>Terraform</div><div>Jenkins</div><div>SQL</div><div>ETL</div><div>CI/CD</div><div>Athena</div></div>  |
| June 2020<br>June 2019       | <b>Software Developer, SP, EY</b> <ul style="list-style-type: none"><li>Contributed to software development for automation and ETL tasks using SQL, Python, Java, and Talend.</li><li>Managed Linux systems, including Ubuntu and CentOS, ensuring stability and security.</li><li>Developed and prototyped machine learning models for predictive analytics and data engineering.</li><li>Full-stack web development.</li></ul> <div><div>Python</div><div>Java</div><div>Linux</div><div>Machine Learning</div><div>SQL</div><div>Bash</div><div>Windows Server</div><div>Talend</div><div>ETL</div><div>Sage X3</div><div>Business Intelligence</div></div>   |

## LANGUAGES

---

Spanish

English

## EDUCATION

---

2020 Computer Science at Universidad Europea de Madrid

## STRENGTHS

---

› Collaboration, Problem Solving, Communication, Adaptability, Fast Learner

## Interests

---

TECHNOLOGY: Keeping up with latest tech trends, Building personal projects (Right now learning more about Rust)

MUSIC: Bass guitar, live music and festivals

OUTDOOR ACTIVITIES: Hiking, Cycling

ARTS: Painting, Visiting museums
